ITE Section Meeting
Wednesday, September 28, 2016
11:45 AM – 1:00 PM

Speaker: Mohammadreza Hashemi (Pasha), M.Sc.
Research Assistant, UH Manoa

Topic: Potential Factors Affecting Roadway Departure Crashes in Oahu, Hawaii

Pasha is currently a Ph.D. student and research assistant at the University of Hawaii at Manoa. His current research focuses on transportation safety modeling. Pasha will be presenting an overview of his research which was also presented at the ITE western district annual meeting in New Mexico earlier this year.

Presentation Highlights:
The presentation will summarize the spatial distribution of Roadway departure (RwD) crashes and their contributing factors at the district level on Oahu. The study is based on data from Hawaii police crash reports and can provide a better understanding of the most probable circumstances in which RwD crashes occur to help decision makers invest effectively on a RwD system safety plan.

Location: Wilson Okamoto Corporation
1907 South Beretania Street, Suite 400
Honolulu, Hawaii 96826

Lunch: $8 for ITE members, $10 for non-members, and $5 for students

RSVP: cfukuoka@atahawaii.com by 4 pm Friday, September 23, 2016

Payment for lunch shall be made at the meeting. Notice of cancellation must be received by the RSVP deadline. “No Shows” will be billed.
